

EG-ICE International Workshop on Intelligent Computing in Engineering 2026 – Call for papers

Would you like to join an intensive workshop, where you can engage with an international community of experts to explore the application of innovative and intelligent computing to engineering challenges?

Then you should definitely consider submitting an extended abstract or a paper and present at the annual **EG-ICE** workshop which will take place in **Padova**, Italy from **1st - 3rd of July 2026**.

Key dates are:

- Abstract submission: December 15th, 2025
- Full paper submission: April 1st, 2026

Submitting an extended abstract of two pages is not mandatory but highly recommended.

The workshop particularly welcomes PhD students and early career researchers, offering a platform for discussion and networking. Participation in the EG-ICE 2026 workshop is open not only to engineers but also to computer scientists, architects, psychologists, and other interested professionals.

For more information, please visit the conference webpage, which will be constantly updated under <https://www.dicea.unipd.it/eg-ice-2026-padua>
